

RYE GENERAL PURPOSE TRANSMISION OIL
--

1) **DESCRIPTION.** A DEXTRON 11 type transmission fluid for transmissions

2) **APPLICATIONS.** Automatic transmissions, torque convertors, power assisted steering systems, and similar systems where DEXTRON II is specified

3) **ADVANTAGES.** Ensures precise gear changes in all climates
High resistance to oxidation and foaming.
Low pour point

4) **CLASSIFICATION.**

General Motors	Dextron 11D
Ford	Mercon
Daimler chrysler	236.6
Allison	C4
Caterpillar	TO-2
Voith	ZF TE-ML-09/11 /14

Sperry Vickers, Dennison and Sunstrand hydraulic pump systems.

5) **Qualities.** Meets the requirements of gear boxes manufactured by Ford, GM, Mercedes Benz and ZF since 1982

6) **Typical characteristics.**

Colour	Red / Golden
Kinematic Viscosity @ 100°Cmm ² /s	5.0 -6.0
Pour point °C	-40
